

---

### **Editorial and refereeing activities**

- since 2018 Co-editor of EPL and member of the European Physical Society.
- since 2017 Referee for several grant-making public bodies, such as Royal Society (UK), DFG (Germany), NWO (The Netherlands), National Science Centre (Poland), and FONDECYT (Chile).
- since 2007 Referee for several journals, including Phys. Rev. Lett., Phys. Rev. D, JHEP, Phys. Lett. B, Class. Quant. Grav., and J. Phys. A.

### **Organizational activities**

- since 2009 Co-organizer of 12 international conferences (see below).
- 2015-2019 Seminar organizer at the LPT, Orsay.
- 2011-2013 Seminar organizer at the Albert Einstein Institute, Golm.

### **Other activities**

- 2019-2020 Member of the Postdoc selection committee for the ERC grant No818066.
- 2008-2009 Member of the Postdoc selection committee at Perimeter Institute.
- 2000–2002 Staff member of the library of the Physics department, Rome.

### **Conferences and workshops organization**

1. “Gravity and other Fields Under the Volcano”, Catania, Italy (10-12/6/2019).
2. “Quantum Gravity in Paris 2019”, IHP, Paris, France (15-19/4/2019).
3. “On a safe road to quantum gravity with matter”, Hvar Island, Croatia (11-14/9/2018).
4. “ERG 2018”, Paris, France (9-13/7/2018).
5. “Quantum Spacetime and the Renormalization Group”, Physikzentrum Bad Honnef, Germany (18-22/6/2018).
6. “Quantum Gravity in Paris 2017”, IHP, Paris, and LPT, Orsay, France (20-23/3/2017).
7. “Quantum Spacetime and the Renormalization Group”, Lorentz Center, Leiden, The Netherlands (13-17/2/2017).
8. “Random Geometry and Physics”, IHP, Paris, France (17-21/10/2016).

- 
9. “Quantum Gravity in Paris 2015”, LPT, Orsay, France (7-10/04/2015).
  10. “Probing the Fundamental Nature of Spacetime with the Renormalization Group”, Nordita, Stockholm, Sweden (23-27/03/2015).
  11. “Gravity at a Lifshitz point”, Perimeter Institute, Canada (8-10/11/2009).
  12. “Asymptotic Safety - 30 years later”, Perimeter Institute, Canada (5-8/11/2009).

**Selection of recent seminars (from a total of > 60)**

- *Multiple scaling limits of an  $O(D)$ -invariant multi-matrix model*, **Invited seminar** at ITP, Utrecht, The Netherlands (October 22, 2020).
- *Melonic CFTs*, **Invited speaker** at "Humboldt Kolleg Frontiers in Physics", Corfu, Greece (September 18, 2019).
- *The large- $N$  limit of tensor models: past, present, and future*, **Invited seminar** at NTU, Taipei, Taiwan (February 22, 2019).
- *Bilocal effective action for tensor models*, **Invited speaker** at Symposium on “Holographic Tensors”, OIST, Okinawa, Japan (October 31, 2018).
- *The large- $N$  limit in tensor-valued field theories*, **Invited speaker** at Workshop on “Quantum Fields - from fundamental concepts to phenomenological questions”, MITP Mainz, Germany (September 28, 2018).
- *2PI effective action for tensor models*, **Invited speaker** at Workshop on “FRGE for Tensor Models”, ITP, Heidelberg, Germany (March 21, 2018).
- *The melonic limit: from random geometries to holography*, **Invited seminar** at KIAS, Seoul, South Korea (February 19, 2018).
- *From SYK to Tensor Models*, **Invited speaker** at “XIII Avogadro Meeting”, Padova, Italy (December 21, 2017).
- *Asymptotic safety: a status report*, **Invited speaker** at Workshop on “Cosmology & High Energy Physics IIP”, L2C, Montpellier, France (December 15, 2017).
- *Renormalization Group Flows in Tensorial Group Field Theories*, **Invited speaker** at Workshop on “Strongly-Interacting Field Theories”, TPI, Jena, Germany (November 7, 2015).
