Member of the Advisory Committee on **Mobility studies and transport supply for the Urban Plan of Cornate d'Adda** (Mi) financed by Cornate d'Adda (coordination by Prof. Giorgio Ferraresi). She elaborated the mobility analysis at the municipality and provincial scales.

#### **1998**

Member of the Advisory Committee on **Valutazione delle alternative localizzative per la scuola elementare intercomunale del Lago di Endine** (tr. Evaluation of the sites for the inter-municipality primary school in ValCavallina), financed by Comunità Montana Valcavallina (Bg). She elaborated a multicriteria analysis to evaluate four sites in four municipalities in Comunità Montana Valcavallina.

#### **1996-1998**

Member of the Advisory Committee on **Town Planning Studies** for the Azzanello (Cr-1996), Abbiategrosso (Mi-1996), Offanengo (Cr, 1997), Cornate d'Adda (Mi- 1998), Municipalities

#### **1996**

Scientific adviser on the rehabilitation project of the Modena railway station area (from November 1996 to April 1997), financed by **Modena Municipality**. She has published articles on this experience (*Il nodo stazione di Modena*, Programma di riqualificazione urbana Fascia ferroviaria Quadrante Nord, Modena).

**RESEARCH DESIGN ACTIVITIES: PROPOSAL DEVELOPED AND PRESENTED AT NATIONAL AND INTERNATIONAL CALLS, UNDER EVALUATION OR NOT SUCCESSFUL**

---

In the last decade, Paola Pucci has been involved in the preparation of a number of research proposal presented in International and National research call, some of them are now under evaluation by UE.

Even if not successful, also due to the high competition, these occasions are central in developing research project design skills and for developing ideas and cooperation networks. At the same time, they have been incubators of generative research ideas. In particular:

**May 24, 2015** (deadline for the call)\_ Horizon2020 “REFLECTIVE-2074/2075 and the topic REFLECvVE-3-2075: European cohesion, regional and urban policies and the perceptions of Europe”  
The proposed project **EuRePe**: European Reframing of Perceptions in the Urban Periphery addresses the implications of European urban policies on perceptions of Europe from a particular analytical perspective: it looks at the ways perceptions manifest through actions *in practice* and *in the context* of concrete interventions in city-regions (Leader project Univ. Amsterdam Prof. Willem Salet).

**April 23, 2015** (deadline for the call)\_ Horizon 2020 “**Strengthening the knowledge and capacities of local authorities - MG-5.4-2015.**

The proposed project **UPTOWN** (Unlocking the potential of Medium Sized Cities facing the challenge of sustainable mobility) aims at providing scientific and ‘on the ground’ support to local authorities to successfully ideate, plan and implement sustainable mobility measures, through a process of packaging of measures (**leader project and coordinator of the project**).

**2015** - Horizon 2020 Call: H2020-MSCA-ITN-2015 Topic: MSCA-ITN-2015-ETN Action: MSCA-ITN-ETN.

The proposed project **URBS “Urban policies in EU: training a new generation of scholars to reduce the gap between theory and practices”** aims at establishing a permanent and fruitful relationship between excellence in research and practices in the field of urban studies, urban planning and urban policies in Europe and developing a joint contribution to the ongoing discussion on the nature, role, efficacy of local, national and EU promoted urban policies in and for European cities. It is based on the setting and implementation of a European Training Network based on active and collaborative exchange between highly qualified PhD programs in urban research and innovative actors in urban policies in European cities. (**leader project**).

**In the Evaluation Result**, total score is 85.40% (Threshold: 70/100.00)

2014 - COST action – “**Governing peri-urban mobilities. User behavior in modal choice and mobility patterns in peri-urban areas” (as coordinator and leader project)**

This COST Action proposal focuses on the production of knowledge related to user behaviours, modal choice and mobility patterns as experienced in peri-urban areas, and more specifically, it fosters the creation of an interdisciplinary network of researchers and experts.

This proposal passed the evaluation in three steps of the reviewing process and it was **admitted to the final oral presentation in Brussels** (III steps evaluation in September 2014), despite it was not financed, due to insufficient budget.

2008 \_PRIN “**ITAV (ITALIAN ATLAS of VELO\_CITIES)** as coordinator of the Milan Research Unit

The research was aimed at drawing up an atlas of urban transformations induced by HS railway lines through projects, plans, studies and achievements of the Italian cities (leader project Università di Genova; prof Mosé Ricci).

## Education

### 1998

**Research fellow** (Assegnista di ricerca, with scholarship from Research Ministry) at Dipartimento di Scienze del territorio, Politecnico di Milano, with a research on the "Evoluzione delle politiche di settore verso visioni e politiche complesse (territoriali, ambientali, sociali)" (tr Sectoral policies evolving towards integrated and complex visions).

### 1995-1997

**Post-doc research fellow** at Politecnico di Milano with the following post-doc Thesis "Ripensando il policentrismo a partire dal ruolo dei nodi infrastrutturali" (tr Rethinking the polycentric model starting from the infrastructure nodes).

### 1994-1995

Scholarship (two years) in Urban Transformations, financed by **Camera di Commercio Industria Artigianato e Agricoltura di Milano (Ufficio studi)**.

### 1990-1993

**Ph. D. in "Pianificazione Territoriale"** (VI cycle) IUAV, Venezia, with the following phd Thesis "Per un approccio territoriale ai nodi infrastrutturali: luoghi di continuità tra reti e territorio" (tr Place-making approach to transport junctions and infrastructure), supervisors: Prof. Gabriel Dupuy (Université de Paris 1 Panthéon-Sorbonne) and Prof. Anna Moretti (Politecnico di Milano).

**1992 - Summer School of Social Sciences**, IUAV Venice, on the topic "Global-Local" (coordinated by Paolo Perulli), with lectures of proff. Jon Elster; Alain Lipietz; Richard Knight; Alessandro Pizzorno; Angela Picchierri; Francesco Indovina.

### 1990-1991

**Advanced Master Degree in Regional Planning and Property Market at Corep, Politecnico di Torino** (with scholarship). Master Thesis on "Quali politiche per le aree dismesse? Il caso di Lecco" (tr What policies for brownfields? The case of Lecco"); supervisor Prof. Gioacchino Garofoli (Università degli Studi di Pavia).

### 1989-1990

**Master Degree in Architecture** (5 years), Facoltà di Architettura, Politecnico di Milano, **100/100 cum Laude**, Master Thesis on "Trasporto pubblico e riqualificazione urbana: quali politiche? Metodologie di analisi degli effetti indotti. Fattori di successo di interventi complessi: casi studio di Lille e Grenoble" (tr. Public transport and urban renewal: what policies? Success factors of complex transport projects: case studies of Lille and Grenoble"), supervisors: proff. M.Valeria Erba and Corinna Morandi).

## Teaching activities

Paola Pucci started her teaching activities in the a.y. 1991-1992 as tutor in the course of "Urbanistica" (Urban planning) held by Prof. Valeria Erba, at the School of Architecture, Politecnico di Milano. After completing her PhD, she was appointed professor by private contract in the field of Urban design and Urban planning at the School of Architecture, Politecnico di Milano (from 1997) and Lecturer in Planning at the Università di Genova (1998-99).

Then, as assistant professor and associate professor at Politecnico di Milano, she has been engaged in many teaching activities at Bachelor, Master and PhD level, as well as in the degree courses in European Schools as Visiting professor. Among the PhD level activities and high qualification teaching activities, she has been tutor in the Alta Scuola Politecnica in two Multidisciplinary Projects and she has taught in PhD courses for GPT (Governo e progettazione del territorio) and Urban Planning Design and Policy PhD Course, following as supervisor and tutor several PhD theses. From October 2010 to August 2011 she taught at the Institut d'Urbanisme de Grenoble, Université Pierre Méndes France at Bachelor, Master and PhD levels.

She has been supervisor and tutor in the following PhD Thesis:

- Felix Adisson (2012-2015), *Les devenirs des espaces de l'Etat : entre marchandisation et reterritorialisation du domaine ferroviaire en France et en Italie*, Joint PhD thesis with Université de Paris Est (Phd course in Governo e Progettazione del territorio, Politecnico di Milano, 26 cycle).
- Bruna Vendemmia (2013-15), *What spaces for highly mobile people ? Analyzing emergent practices of mobility in Italy* (Phd course in Governo e Progettazione del territorio, Politecnico di Milano, 27 cycle).
- Alokeparna Sengupta, *New Transport Supplies and their Social Impacts on Mobility: The case of modernisation of Delhi's Urban Public Transport* (Phd course in Governo e Progettazione del territorio, Politecnico di Milano, 26 cycle).
- Giovanni Vecchio (2015-2017) *The enabling movement. Planning mobility for capable territories* (Phd course in Urban Planning Design and Policy, Politecnico di Milano, 30 cycle)
- Priscillia Jorge (ongoing thesis) *The image of the metropolis. Analysis of the Parisian and Milanese urban* Joint PhD thesis with Université de Paris Est (Phd course in Urban Planning Design and Policy, Politecnico di Milano, 30 cycle).
- Paola Sturla (ongoing thesis) *Big Data and parametric advanced tools in landscape design for infrastructural projects: opportunities, impacts and risks* (Phd course in Urban Planning Design and Policy, Politecnico di Milano, 33 cycle).
- Giovanni Lanza (ongoing thesis) *Promoting social inclusion through mobility policies in the digital age* (Phd course in Urban Planning Design and Policy, Politecnico di Milano, 34 ciclo).
  - Luis Morais (ongoing thesis), *The Impact of Electric Mobility on Urban Transformations*, Phd course in Urban Planning Design and Policy, Politecnico di Milano, 35 ciclo).
